

Young commercial Transfer-

[music]

Commercial transfer I know for sure has been in existence for over 110 years

That business was owned by a man last name Laurie

My dad bought the business from him in 1935

Basically, started in the San Joaquin valley here hauling anything could

Today we are a trucking company but really an ad company

We are dedicated to California food processing we are the first link in the food chain

That's what we truly believe no one eats anything unless it comes out of the field and we haul it out first

We primarily operate in California, Arizona and Nevada

Haul a lot of citrus and canned tomato. We are the largest tomato hauler in the world.

Larry and I are co-owners of the business and have great relationship

Larry and I try to keep in mind first and foremost its family its always family first

We are not in this business to grow this business and exit via private equity or sell

We are doing that, we here for the long run, here for our customers we are here to be there heroes. The heroes for the food processing industry that's who we want to be.

You see people come out of Fresno State or college and they struggle to find a place in the world.

And we feel we have a pretty neat one here not only for our family members, our own children but also for steward or the people who work out here for their own children too

[fading music]
